

AMENDMENTS TO THE SPECIFICATION

Please replace paragraphs of the specification with the following replacement paragraphs shown in marked-up format. No new matter has been entered.

[0023] A high-density optical disk, for example, a Blu-Ray ROM (BD-ROM) in accordance with the invention may have a file or data structure for managing reproduction of video and audio data as shown in Fig. 1. Many aspects of the data structure according to the present invention shown in Fig. 1 are similar to that of the BD-RE standard. As such, it is understood that as used herein "recording medium" includes computer-readable media such as these high-density optical disks.
